

A FIRE HAS BEEN LIT

14 nations.....so far

COURAGEOUS and FLOURISH are well on their way to becoming worldwide resources.

It was our hope that these Life Skills Programs would go global, but we are in awe of just how quickly this is happening in just the few short months since their inception. We (Paul & Deb, Kelvin & Bek Windsor as well as Bruce & Marion Macaulay who are co-workers), worked hard and long on these programs to make them what they are, but it is God who has breathed on them to make them live.

FOURTEEN nations have now gone through COURAGEOUS or FLOURISH training and this is fantastic, but our goal is to see these programs go into every nation, to people groups, and the diverse cultures within those nations. WHY? Because we know that every person is created for purpose, and should have the opportunity to walk out their personal journey of life in wholeness. Also to realise that life is not only about fulfilling their own destiny, but to help others to fulfil theirs as well. These programs are filled with practical life tools to assist and encourage participants to achieve this, and we are super excited at the prospect of seeing lives transformed through COURAGEOUS AND FLOURISH.

What our trained participants are saying about COURAGEOUS and FLOURISH

"They are impacting, life changing, relevant, practical, culturally transferable, doable, we can't wait to use this material."

This is music to our ears. Stay tuned!

Building on the Heritage planted in the mountains

Adopt a Village Story

Isaiah 52: 7 *'How amazingly beautiful on the mountains are the feet of the messenger bringing good news.'*

The sp** foundation built on by local brothers and sisters for over forty years in a mountainous area we are working in, is quite significant. The footsteps of pioneer Ps* who chose to scale those mountains to bring the most important message to the people living within those foothills and crags, still ring loud as ch* have been established and people are connecting to the Father.

For our team, AOGWR, who have been working in this area for over five years now, understand the shoulders we are standing on, and as co-labourers with locals, we want to ensure communities in this area stay connected and grow in every area of their life. Being an area close to the Laos border, we are fully aware of the issues of trafficking that continue to be rife across so many borders and one of our aims is to safeguard against this possibility here. Layer upon layer, through our community engagement, we are seeing these communities become stronger, but there is still much more to do. Because of growing relationship and trust with these people, we are able to take them on journeys of hope. Training and education is KEY. Child protection, Life Skills, Building healthy families, and so much more.

Pr* with us as we see holistic growth and security.

EVERY 45 seconds, a child drowns in Asia

It came to our attention a few years ago that in Vietnam, 32 children drown per day, which equates to 1 child every 45 minutes. In real terms, this means, every 45 minutes, a family will lose a child simply due to the lack of education on water safety. We were devastated. We tried to teach some basic survival skills to children in our Life Skills Camps but realised, we were not the experts. We decided to get smart and partner with those who DO know what they are doing, and are so pleased to be working alongside Swim Vietnam.

China: Beijing	1 child dies from drowning every 2 days
China: Beijing	1 child dies from drowning every 2 days
China: Jiangxi Province	13 children die from drowning every day
Viet Nam	32 children die from drowning every day
Cambodia	6 children die from drowning every day
Thailand	7 children die from drowning every day
Bangladesh	46 children die from drowning every day

The Good news is:

We at AOGWR along with partner chs* will join together with Swim Vietnam Organisation to combat this unspeakable statistic

Would love to hear From You.....

We are grateful that we not only have you as partners but also as friends. To do anything well, it has to come out of relationship. We know, as well as many others, that 'together we are better, stronger, more able to do what we do because we do this united for the common purpose of seeing lives whole, body mind & soul.

Ecclesiastes 4:9-12

So in saying this, send us a hello, your news, your pr needs, however you best communicate.
